

Free Doge AI (FDAI) Whitepaper

About

Free Doge AI (FDAI) is a community-supported, tax-free, and decentralized meme + artificial intelligence (AI) token that can be stored on the BNB Chain (BEP-20).

It combines entertainment with the whole to create a new generation of digital culture. Inspired by the spirit of Dogecoin and Elon Musk's love of dogs.

FDAI is a new digital lifestyle where humor, AI, and the power of community come together.

Our Goals

- To deliver a fun and accessible crypto experience by combining AI and meme culture
- To create a decentralized, fair, and completely tax-free token economy
- A structure where everyone has the right to own, with the power coming from the collector

Token Information

Token Name: Free Doge AI

Symbol: FDAI

Supply: 2 Quadrillion (2,000,000,000,000,000 Total)

Decimal: 18
